

MEDICAL PROJECTS RESUME

### FIRM BACKGROUND

Founded in 2002, MW Architects is a client-friendly, full-service architectural studio led by architects Michael Peachey and Wayne Stuart. Combined, they bring over 50 years of experience in all aspects of the design and development process including: schematic design, team building, project development and approval, budgeting and cost negotiations, and contractor coordination. Michael and Wayne have worked together as a team since 1998.

- Arming Our Clients with Powerful Professional Resources Our approach is collaborative, building a team of experts which includes the client. We bring a highly experienced consultant team together to provide the owner with expert advice on all aspects of their project. Along with these consultants MWA seeks to involve the contractor early in the process to further give the client valuable information.
- Personalizing the Design Process Rather than approach each individual project with a
  single theory or concept, MWA listens to the whole team to give the client direction in
  making the most informed choice. They lead each client through every phase of design
  and construction, from napkin sketch to finishing touches.
- Creating Projects that Add Value It is not enough for us to create outstanding architecture. At the end of the project we strive for a product that is both attractive and within budget that the client is pleased with. MWA is committed to designing buildings that incorporate resource efficiency, energy efficiency, and healthy environments. They have included the following strategies in their designs; Passive and active solar space heating, solar heating of domestic hot water, energy crafted building envelopes, high efficiency appliances, water saving devices, improved indoor air quality via healthy building materials, superior venting and ventilation systems, use of local resources, and preservation or restoration of landscapes.

# THE "M" & "W"

### Michael C. Peachey | Principal Architect

Michael's exposure to world architecture started at a young age, while traveling the globe with his father who served in the Air Force. During high school, his Grandfather, a Building Inspector, provided the impetus to explore the world of architecture. Michael worked in the construction trades as a concrete laborer, roofer and framing contractor. His ventures eventually led him to Cal Poly San Luis Obispo in 1979, where he entered the five-year architectural program. Prior to his fourth year, he received a full scholarship to study in Europe at the Ecoles D' Art Program in Fontainebleau, France. Through the years, design excellence and technical competence on many differing projects has expanded Michael's reach and resulted many award-winning projects, notably the Hotel Cheval in Paso Robles.

## Wayne R. Stuart | Principal Architect

Wayne brings years of practical experience to the project team, having worked extensively in many areas of building technology. After completing college, he began employment in the construction field, concurrently seeking an opening in the architectural field. Subsequent to securing a job with an architect that offered both architectural and construction services, he gained extensive experience in both fields. From these varied experiences and personal gifts in leadership, management, and organization, along with his love for the technical side of architecture, Wayne is committed to quality, not merely getting plans through requisite processes.

#### THE TEAM

MW Architects' staff family is a group of diverse individuals with a variety of gifts and experiences coming together under the leadership of Mike and Wayne to form a cohesive and effective team. This team offers the direct availability and personal relationship focus of a small business while harnessing the latest technologies to work quickly and efficiently on any scale.

**C.J. Horstman | Architect -** A 2013 Cal Poly Grad focused on programming, entitlements, design and visualization.

**Derrick Carter** | **Project Manager-** A computer programming guru with over 25 years of industry experience delivering residential, commercial and industrial projects from S-XL.

**Catheline Goodman | Designer -** A detail-oriented 2008 Cal Poly Grad & LEED AP who works across design, construction drawings and construction administration.

**Drew Van De Vanter** | **Draftsman-** A Central Coast native and Cuesta College Graduate with years of experience working in the construction industry.

# **SELECT EXPERIENCE- MEDICAL COMPLEXES**

#### Parkway Medical Center – Santa Maria

A 3-story 30,000 sq. ft. medical office building. The two outdoor plazas provided outdoor areas for enjoying lunch and snacks at the kiosk developed on the southern exposure, with the building blocking the prevailing winds of Santa Maria. In addition to the 3 story shell building, our office was instrumental in developing the majority of the doctor's tenant improvements.

#### FzioMed – San Luis Obispo

FzioMed is a privately held medical device company founded in 1996. The company develops, manufactures and commercializes absorbable, surgical biomaterials based on its patented polymer science. FzioMed products are used in the fields of spine/orthopedics, gynecology/general surgery, and aesthetic surgery. MWA designed the 20,000 sq. foot building to accommodate the current needs of FzioMed and future expansion. The initial design included Research Development, Product Assembly, Environmental Control Room with clean room technologies, shipping and receiving and administrative staff for sales and product development. This facility was completed in 2003.

Tank Farm Medical Office Park–San Luis Obispo

Design of Office Park with Medical Building as primary building – San Luis Obispo. Buildings designed as tilt-up with special consideration for additional electrical capacity for future x-ray and generator pads for emergency services.

# Prado Medical Office Park – San Luis Obispo

Conceptual design and entitlement for two 40,000 sf. medical office shell structures for future relocation of local medical group.

## Sierra Vista Medical Pavilion - San Luis Obispo

Planning and building department approvals for a 31,000 s.f. medical office building. The building has become part of the campus facilities for a major local hospital. APS acted as the local liaison and provided construction documents and observation for the shell building, working with the design architect located in Seattle.

### **SELECT EXPERIENCE- MEDICAL OFFICE TENNANT IMPROVEMENTS**

#### Central Coast Ortho Group – Santa Maria

Collaboration of design and shell revisions for 5,600 sf. interior improvements at the Parkway Medical Facility.

#### Dr. Dawes – Santa Maria

Design of 2,400 sf. medical office facility for family practice which included 5 exam rooms and one procedure room.

### Dr. Jahnke – Santa Maria

Design of 3,,700 sf. medical office facility for Gastroenterologist that included 7 exam rooms and one procedure room.

### Dr. Sterling – Santa Maria

Design of 3500 sf. medical office facility for Podiatrist that included 7 exam rooms.

### Marian Medical Lab and X-ray – Santa Maria

Design of 1,400 sf. medical lab-xray for Marian Hospital.

## Posada Medical Tenant Improvement – Templeton

Design of a 1,100 sq.ft. psychiatrist office tenant improvements
